Front-end developer

Front-end developer with solid skills in Javascript ES6 and intensive study of **React.js.** In addition to my front-end expertise, I can also effectively create simple programming interfaces (**APIs**) and have extensive **knowledge of database design** and maintenance. I have experience in developing **innovative web applications**, and my **analytical skills** allow me to solve problems effectively. I demonstrate flexibility at work, being able to both **work effectively individually and collaborate in a team**. I have experience working with a variety of technical and non-technical teams, **as well as with business clients**. I am currently looking for new challenges and opportunities to develop my skills.

- https://www.linkedin.com/in/dawid-piech/

Technical skills

- **Javascript ES6+** - asynchronous functions, hoisting, event looping, arrow functions, event propagation, etc.
- **TypeScript** - basic knowledge including the use of types, interfaces, etc.
- **React & Redux** - hooks, HoC, as well as many other related libraries like react-router etc.
- **CSS-in-JS & SCSS** - styled-components, BEM
- **HTML & CSS** - semantics, seo, performance, multi-browser support
- **Git, GitHub** - teamwork, merging, commiting, branching, pull-requests etc.
- **Wordpress** - implementation of pages based on ready-made templates together with Gutenberg blocks
- **REST API** - the ability to handle communications and construct requests to APIs over HTTP
- **Figma, Photoshop** - application management in the basic scope

Soft skills

- **Communication skills:** ability to clearly communicate with the team and understand customer demands.

Experience

◆ 10.2022 - currently
Front-end developer - CD-TECH
- Designing and successfully implementing innovative solutions based on the WordPress platform, leveraging the functionality of Gutenberg blocks
- Proactively **collaborate with both the team and clients** to deliver designs in line with their expectations
- Testing and Error Resolution: **Actively participate in the site testing process**, identifying errors and resolving them effectively.

◆ 03.2019 - currently
IT support - Sii Sp. z o.o.
- Prepare **scripts to automate repetitive tasks**.
- Writing simple applications for design purposes.
- **Collaborate with development and implementation teams** to optimize applications and fix bugs
- Performing **manual testing** of applications
- Providing technical support to users, **ensuring effective resolution of software problems**.
- Configuring applications for effective operation

Data Analyst - Sii Sp. z o.o.
- Preparing **complex SQL queries**
- Designing and **analyzing reports using tools such as Excel**
- Preparing and controlling projects according to SOX standards

◆ 06.2017 - 06.2018
Security officer - Konsalnet
- Management of office building security and safety
- Performing the duties of a team leader

- **Team and cooperation**: ability to work effectively with other team members, ability to work in a team.
- **Initiative and self-reliance**: willingness to take initiative and ability to solve problems independently.
- **Attention to detail:** ability to focus on small details, which is important in the UI development process.
- **Problem solving:** Ability to analyze problems and effectively find creative solutions.
- **Adaptability to change:** Willingness to learn and adapt to new technologies and design changes.

Courses and training

Software development with Javascript - advanced - 10.2023

- **Good practices** when writing Javascript code
- Asynchronous JavaScript: **Event loop**, promises, async/await, AJAX and API calls
- **Modern OOP**: Classes, constructors, prototypical inheritance, encapsulation, etc.
- Implicit operations in JS
- Introduction to **NoSQL databases** using **MongoDB** as an example
- **Shadow DOM**

A course to understand React - 01.2024

- The course focuses on teaching the latest tools and best solutions such as Vite, Tailwind CSS, Router Loader, Next.js Hosted on Netlify and Vercel

Languages

- English - B2
- Polish - native

06.2016 - 06.2017
IT support

- **Customizing websites** to perfectly reflect the needs and character of the company
- Designing **innovative and attractive HTML** templates
- Taking and processing images for sales proposals in Photoshop
- **Ensuring the reliability and performance of the office's computer hardware**, including computers, servers, laptops, network devices and printers

Education

10.2016 - 07.2021
Wyższa Szkoła Ekonomii i Informatyki w Krakowie
Computer Science and Econometrics Engineer

09.2012 - 06.2016
Zespół Szkół Technicznych i Branżowych im. Bohaterów Westerplatte w Brzesku - IT technician

Projects

MovieAPP - movieapp.piech.it

An application for browsing movies, actors and film crew. The search engine present in the app makes it easy to quickly find the content you are looking for. It is based on external TMDB API and React.js using Redux-toolkit.

Technology stack: **React.js, styled-components, Redux-toolkit, Redux-saga, API**

SPORTEJO - sportejo.piech.it

A classifieds service where we can browse, add and edit sports facility rental offers. The application is based on a non-relational database and Node.js environment.

Technology stack: **React.js, Express.js, Node.js, MongoDB, Mongoosee, SASS**

Hobby

Automotive

I like to read books (mostly detective stories)

Gym, running, rollerblading

I am interested in dietetics and healthy lifestyle
